Ride with confidence™ **Bendix Moto**

ULTIMATE+

Made from high performance ceramic material for ultimate braking feel.

Whether you're an everyday commuter or casual rider, Ultimate+ offers you complete confidence and control on your journey.

LOW DUST

Made from compounds proven to reduce wear, Ultimate+ are designed to limit the impact of metal-on-metal contact, improving their longevity.

LOW NOISE

Say goodbye to squeaky brakes and hello to a quieter, smoother ride all round.

LOW ROTOR WEAR

With Ultimate+ your rotor will have a life span that is healthier for longer, no matter your riding style.

Perfect for:

- Cruisers
- Small and medium capacity machines
- Commuters
- Trail and touring bike

STREET ROAD TRACK

Built for longevity and spirited riding.

Street Road Track is your choice when performance matters. It's the perfect pad option if you like to ride a bigger bike or go harder with your riding style.

STABLE FRICTION

Offering superior friction stability so you'll always know what to expect every time you hit the brakes.

STRONG INITIAL BITE

Delivering increased responsiveness, designed to stick to your rotors faster, helping you stop faster with more control.

LOW FADE

Offering an increased lifespan compared to the industry standard and delivering a better reduction in braking ability over time.

Perfect for:

- Spirited riding
- Large capacity and heavier machines
