

Bendix

BRAKE DRUM

Featuring high quality metallurgy, Bendix Brake Drums deliver strong braking performance and low noise operation along with a confident and consistent pedal feel.

Bendix has applied its expert knowledge in the design and manufacture of disc brake rotors to the brake drum category, with the recent launch of its new Brake Drum range.

The range fills a niche in the Bendix parts catalogue and targets utility vehicles and their wagon derivatives, many of which continue to operate drum brakes. Additionally, options are available for entry level passenger cars within the light car segment, such as the popular MG3.

- Oil free
- Corrosion resistant
- Swap and go

Original
Equipment Fit

- Direct OE replacement
- Meets or exceeds OE specifications

BENDIX BRAKE DRUM

SwiftFit™ Coating

MORE EFFICIENT INSTALLATION

SwiftFit™ surface protection allows Bendix Brake Drums to be fitted immediately without the need to clean anti-rust oil or coating from the surface, saving installation time in the workshop. SwiftFit™ also helps prevent corrosion for an unlimited shelf life and longer fault free service.

Original Equipment Fit

AN EXACT FIT EVERY TIME

To provide peace of mind for workshops and vehicle owners, Bendix Brake Drums also offer an 'E+ Original Equipment Fit' that's designed to be a direct replacement for OE drums and meet or exceeding all OE specifications.

Why choose Bendix Brake Drums?

Features

SwiftFit™ Coating

E+ Original Equipment Fit

User friendly and sustainable packaging

Benefits

Faster installation SwiftFit™ coating for fitting without pre-cleaning, with corrosion inhibitors for a great look and will not degrade over time.

Designed as a direct replacement for OE rotors, meeting or exceeding all OE requirements.

FSC™ Certified exterior packaging suitable for curbside recycling. Packaging also features pre-punctured 'Easy Carry' holes for easier handling, as well as installation suggestions.

To enjoy optimum braking performance from the Bendix Brake Drum range, they're best paired with Bendix Brake Shoes, although the drums are compatible with most brand brake shoes.
